Link: residentevil4moviesfolderdownload How to download Resident Evil 4 Movie Folders!

This blog post is about how you can download Resident Evil 4 movie folders. It also has a link to a website that can help you get these movies.

For those who don't know, the movies that you see in the game are actually folders. Here is a picture of one:

To download these movies you need to do the following: 1. Download and install Winrar. You can download it here . 2. Open up Winrar and select all of the files in the movie folder that you want to have downloaded into your computer by pressing CTRL+A. After that press CTRL+C to copy all of the files, next press CTRL+V to paste them into a folder on your computer so they are saved there. 3. Now go to <http://www.residentevil-movies.com/download/> and download the direct link that says LATEST VERSION available, which will have all of the movies in it. When you have finished downloading this file open up Winrar again and go to RESIDENT EVIL 4 MOVIES FOLDER DOWNLOAD here . 4. Extract all of the files in the folder using Winrar. This process will take a while so be patient Either that or keep on reading below for instructions on how to do this.

5. You should now see 18 folders titled with numbers 1-18 (the ones with numbers are the ones that were previously copied over). All of these folders have the same name so you will have to rename them so they are easier to identify. Once you have renamed all 18 files, copy and paste all of these files onto a flash drive. The flash drive should be formatted as FAT32 format. 6. Transfer this flash drive into your PS2 and then go into the movie folder that you downloaded from the website that I mentioned above. After that press "+" on your controller and it should bring up a list of available movies that you can watch. Select the movie that you want to watch and then press "X". 7. Go to the main menu and press Triangle, Square, Circle then X all of which should be listed as "FUND0" on the bottom of the screen. This will bring up a list of movies that you can watch. Select where you want to watch this movie from, say disc 1 if it is only one movie or select "ALL" if there are multiple movies to watch. Finally, click on "Play" and you are all set! If things aren't working properly for you then try these steps:

I hope I help out some people who might not know how to do this.
